

Deep Brain Stimulation for Spasmodic Dysphonia: DEBUSSY trial - Screening Form

February 16, 2016

Dear Patient,

We are screening potential patients to enter our DEBUSSY trial to evaluate the benefits of deep brain stimulation on the vocal dysfunction of spasmodic dysphonia. If you are interested in potentially being involved in this clinical trial, please fill in the form below and then mail or email it to our study coordinator.

Email: anujan.poologaindran@gmail.com

Mail: Dr. C.R. Honey, Suite 8105, 2775 Laurel St., Vancouver, BC, V5Z 1M9

Thank you for your consideration. Sincerely,

A handwritten signature in blue ink, appearing to be 'C.R. Honey', with a long horizontal stroke extending to the right.

Christopher R. Honey MD, DPhil, FRCSC
Professor of Neurosurgery, UBC

1) Do you have adductor or abductor or mixed spasmodic dysphonia?

Not Sure Adductor Abductor Mixed

2) Do you have essential voice tremor or muscle tension dysphonia or any other voice disorder?

Not Sure Yes No

3) Have you had brain surgery in the past?

Not Sure Yes No

4) Have you had laryngeal denervation-reinnervation surgery in the past?

Not Sure Yes No

5) Are you being treated for Parkinson's disease, Alzheimer's disease, or any other neurodegenerative disorder?

Not Sure Yes No

6) Have you ever had a stroke or multiple sclerosis?

Not Sure Yes No

7) Have you ever had a cardiac (heart) pacemaker or heart attack?

Not Sure Yes No

8) Are you currently taking blood thinners or being treated for any bleeding disorder?

Not Sure Yes No

9) Do you have cancer or any other serious medical problems?

Not Sure Yes No
